

MR. LEWONDONSKI: My name is Scott

7 Lewondonski, L-E-W-O-N-D-O-W-S-K-I.

8 I've been observing this debate for better

9 than 20 years now and it seems that it all boils down
10 to politics and my concern is the people who are making
11 these decisions and influencing those who make the
12 decisions are doing it for political reasons and not
13 because it's the right thing to do and if there is any
14 way I can urge some of those people to make the
15 decisions based on what's the right thing to do, then
16 that's what I'm here for. I hate to see something like
17 this be determined because of politics. I guess that's
18 about all I got to say. Thanks.
